

EDITORIAL

October

- 771 Blackwell Publishing will become the new publisher of *Cancer Science* from 2005, Volume 96.

REVIEW ARTICLES

January

- 1 Metabolic activation of polycyclic aromatic hydrocarbons to carcinogens by cytochromes P450 1A1 and 1B1 T. Shimada *et al.*
7 Isolation of p53-target genes and their functional analysis Y. Nakamura

February

- 105 Antitumor activity of sugar-modified cytosine nucleosides A. Matsuda *et al.*
112 DNA repair and cancer: Lessons from mutant mouse models T. Ishikawa *et al.*

March

- 197 Molecular footprints of human lung cancer progression J. Yokota *et al.*

April

- 283 Development of gene therapy to target pancreatic cancer T. Yoshida *et al.*
290 Heterocyclic amines: Mutagens/carcinogens produced during cooking of meat and fish T. Sugimura *et al.*

May

- 377 Carbohydrate-mediated cell adhesion in cancer metastasis and angiogenesis R. Kannagi *et al.*
385 Search for new biomarkers of gastric cancer through serial analysis of gene expression and its clinical implications W. Yasui *et al.*

June

- 469 Thymus-leukemia antigen (TL) as a major histocompatibility complex (MHC) class Ib molecule and tumor-specific antigen K. Tsujimura *et al.*
475 Gene mutations and altered gene expression in azoxymethane-induced colon carcinogenesis in rodents M. Takahashi *et al.*

July

- 553 Heparanase as a molecular target of cancer chemotherapy S. Simizu *et al.*
559 Comparative genomic hybridization (CGH)-arrays pave the way for identification of novel cancer-related genes J. Inazawa *et al.*

August

- 621 Monoclonal antibodies as effective therapeutic agents for solid tumors Y. Hinoda *et al.*
626 ETS transcription factors: Possible targets for cancer therapy T. Oikawa

September

- 697 The critical role of type-1 innate and acquired immunity in tumor immunotherapy H. Ikeda *et al.*
704 Genetic and epigenetic factors involved in B-cell lymphomagenesis M. Seto

October

- 772 What are the reasons for negative phase III trials of molecular-target-based drugs? N. Saijo
777 TRAIL and its receptors as targets for cancer therapy H. Yagita *et al.*
784 Identification of human tumor antigens and its implications for diagnosis and treatment of cancer Y. Kawakami *et al.*

November

- 851 The role of thymidine phosphorylase, an angiogenic enzyme, in tumor progression S. Akiyama *et al.*
858 Interferon- β gene therapy for cancer: Basic research to clinical application J. Yoshida *et al.*
866 Role of BRCA1 and BRCA2 as regulators of DNA repair, transcription, and cell cycle in response to DNA damage K. Yoshida *et al.*

December

- 921 Perspectives on cancer immuno-epidemiology K. Nakachi *et al.*
930 Mechanism and biological significance of CD44 cleavage O. Nagano *et al.*

ORIGINAL ARTICLES

CARCINOGENESIS

January

- 12 Transforming growth factor- β signaling is differentially inhibited by Smad2D450E and Smad3D407E M. Kondo *et al.*

February

- 118 Detection of a smaller, 32-kDa 8-oxoguanine DNA glycosylase 1 in 3'-methyl-4-dimethylaminoazobenzene-treated mouse liver T. Hirano *et al.*
123 Rapid analysis of gene expression changes caused by liver carcinogens and chemopreventive agents using a newly developed three-dimensional microarray system N. Hokaiwado *et al.*
131 Cloning of a G-protein-coupled receptor that shows an activity to transform NIH3T3 cells and is expressed in gastric cancer cells S. Okumura *et al.*

March

- 205 Rapid induction of skin and mammary tumors in human c-Ha-ras proto-oncogene transgenic rats by treatment with 7,12-dimethylbenz[a]anthracene followed by 12-O-tetradecanoylphorbol 13-acetate C. B. Park *et al.*

April

- 300 Lack of modifying effects of 4-tert-octylphenol and benzyl butyl phthalate on 3,2'-dimethyl-4-aminobiphenyl-induced prostate carcinogenesis in rats H. Kohno *et al.*
306 Integration of human T-cell leukemia virus type 1 in genes of leukemia cells of patients with adult T-cell leukemia S. Hanai *et al.*
311 Presence of human mycoplasma DNA in gastric tissue samples from Korean chronic gastritis patients H.-J. Kwon *et al.*
316 Tumor formation is correlated with expression of β -catenin-accumulated crypts in azoxymethane-induced colon carcinogenesis in mice K. Hata *et al.*

May

- 393 Dose-related changes of oxidative stress and cell proliferation in kidneys of male and female F344 rats exposed to potassium bromate T. Umemura *et al.*
399 Preferential mammary carcinogenic effects of 2-amino-1-methyl-6-phenylimidazo[4,5-b]pyridine (PhIP) in human c-Ha-ras proto-oncogene transgenic rats A. Naito *et al.*
404 Possible enhancing effects of atrazine and nonylphenol on 7,12-dimethylbenz[a]anthracene-induced mammary tumor development in human c-Ha-ras proto-oncogene transgenic rats K. Fukumachi *et al.*

June

- 481 Pomegranate seed oil rich in conjugated linolenic acid suppresses chemically induced colon carcinogenesis in rats H. Kohno *et al.*
487 β -Catenin gene alteration in glandular stomach adenocarcinomas in N-methyl-N-nitrosourea-treated and *Helicobacter pylori*-infected Mongolian gerbils X. Cao *et al.*

July

- 564 Prompt tumor formation and maintenance of constitutive NF- κ B activity of multiple myeloma cells in NOD/SCID/ γ c^{null} mice Md. Z. Dewan *et al.*
569 Frequent and preferential infection of *Treponema denticola*, *Streptococcus mitis*, and *Streptococcus anginosus* in esophageal cancers M. Narikiyo *et al.*

August

- 634 Detection of a mouse OGG1 fragment during caspase-dependent apoptosis: Oxidative DNA damage and apoptosis T. Hirano *et al.*
639 Tumorigenesis facilitated by Pten deficiency in the skin: Evidence of p53-Pten complex formation on the initiation phase N. Komazawa *et al.*

September

- 711 Estrogen enhancement of androgen-responsive gene expression in hormone-induced hyperplasia in the ventral prostate of F344 rats N. Fujimoto *et al.*
- 716 c-kit gene mutations in intracranial germinomas Y. Sakuma *et al.*
- 721 Sequential observations on the occurrence of preneoplastic and neoplastic lesions in mouse colon treated with azoxymethane and dextran sodium sulfate R. Suzuki *et al.*

October

- 792 Histological and immunohistochemical observations of mucin-depleted foci (MDF) stained with Alcian blue, in rat colon carcinogenesis induced with 1,2-dimethylhydrazine dihydrochloride N. Yoshimi *et al.*
- 798 Cloning of Mongolian gerbil cDNAs encoding inflammatory proteins, and their expression in glandular stomach during *H. pylori* infection S. Matsubara *et al.*

November

- 872 Eradication of *Helicobacter pylori* induces apoptosis and inhibits proliferation of heterotopic proliferative glands in infected Mongolian gerbils X. Cao *et al.*

December

- 936 Inhibition of cell proliferation by nobletin, a dietary phytochemical, associated with apoptosis and characteristic gene expression, but lack of effect on early rat hepatocarcinogenesis *in vivo* H. Ohnishi *et al.*
- 943 Induction of DNA-adducts and increase of 8-hydroxy-2-deoxyguanosine, but no development of preneoplastic lesions in offspring liver with transplacental and trans-breast milk exposure to 2-amino-3,8-dimethylimidazo [4,5-f] quinoxaline (MeIQx) in rats T. Ichihara *et al.*

TUMOR BIOLOGY AND PATHOLOGY

January

- 18 Suppression of metastasis by nuclear factor κ B inhibitors in an *in vivo* lung metastasis model of chemically induced hepatocellular carcinoma M. Futakuchi *et al.*
- 25 Inhibition of lymphangiogenesis-related properties of murine lymphatic endothelial cells and lymph node metastasis of lung cancer by the matrix metalloproteinase inhibitor MMI270 E. S. Nakamura *et al.*
- 32 Expression of VEGF-C and VEGF-D at the invasive edge correlates with lymph node metastasis and prognosis of patients with colorectal carcinoma S. Onogawa *et al.*

February

- 136 Correlation of EPHA2 overexpression with high microvessel count in human primary colorectal cancer H. Kataoka *et al.*
- 142 Increased expression of integrin α 3 β 1 in highly brain metastatic subclone of a human non-small cell lung cancer cell line T. Yoshimatsu *et al.*

March

- 211 Unique characteristics of rectal carcinoma cell lines derived from invasive carcinomas in ulcerative colitis patients K. Yamashita *et al.*

April

- 321 Reduced HGF expression in subcutaneous CT26 tumor genetically modified to secrete NK4 and its possible relation with antitumor effects T. Kubota *et al.*
- 328 Suppression of VEGFR-3 signaling inhibits lymph node metastasis in gastric cancer K. Shimizu *et al.*
- 334 Molecular markers for reinforcement of histological subclassification of neuroendocrine lung tumors Y. Kobayashi *et al.*
- 342 Nitric oxide generated by iNOS reduces deformability of Lewis lung carcinoma cells S. Igawa *et al.*

May

- 411 Identification of differentially expressed molecules in adult T-cell leukemia cells proliferating *in vivo* H. Koga *et al.*
- 418 Expression of the c-myc gene as a predictor of chemotherapy response and a prognostic factor in patients with ovarian cancer T. Iba *et al.*

June

- 491 Expression of the prolactin-inducible protein (PIP/GCDFP15) gene in benign epithelium and adenocarcinoma of the prostate W. Tian *et al.*
- 496 Prediction of prognosis of estrogen receptor-positive breast cancer with combination of selected estrogen-regulated genes N. Yoshida *et al.*

July

- 575 Establishment of two cell lines from human gastric scirrhous carcinoma that possess the potential to metastasize spontaneously in nude mice K. Yanagihara *et al.*
- 583 Overexpression of the Wilms' tumor gene *WT1* in pancreatic ductal adenocarcinoma Y. Oji *et al.*

August

- 644 Reactive oxygen species (ROS) control the expression of Bcl-2 family proteins by regulating their phosphorylation and ubiquitination D. Li *et al.*
- 651 Alterations of the p16^{INK4a}/p14^{ARF} pathway in clear cell sarcoma T. Takahira *et al.*
- 656 Biophoton detection as a novel technique for cancer imaging M. Takeda *et al.*
- 662 Dominant-negative Stat5 inhibits growth and induces apoptosis in T47D-derived tumors in nude mice H. Yamashita *et al.*
- 666 Involvement of cell cycle regulatory proteins and MAP kinase signaling pathway in growth inhibition and cell cycle arrest by a selective cyclooxygenase 2 inhibitor, etodolac, in human hepatocellular carcinoma cell lines J. Cheng *et al.*

September

- 728 Paradoxically enhanced immunoreactivity of hepatocyte growth factor activator inhibitor type 1 (HAI-1) in cancer cells at the invasion front K. Nagaike *et al.*
- 736 Promoter hypermethylation of *DAP-kinase* is associated with poor survival in primary biliary tract carcinoma patients T. Tozawa *et al.*

October

- 803 Activation of c-Met (hepatocyte growth factor receptor) in human gastric cancer tissue T. Inoue *et al.*
- 809 Comparison of genetic aberrations in CD10⁺ diffused large B-cell lymphoma and follicular lymphoma by comparative genomic hybridization and tissue-fluorescence *in situ* hybridization X. Zhang *et al.*
- 815 Identification of a mouse cytoskeleton-associated protein, CKAP2, with microtubule-stabilizing properties Y. Jin *et al.*
- 822 Overexpression of the Wilms' tumor gene *WT1* in primary astrocytic tumors Y. Oji *et al.*

November

- 878 Transforming growth factor- β 1-induced apoptosis is blocked by β 1-integrin-mediated mitogen-activated protein kinase activation in human hepatoma cells H. Zhang *et al.*
- 887 mRNA expression level of estrogen-inducible gene, α 1-antichymotrypsin, is a predictor of early tumor recurrence in patients with invasive breast cancers J. Yamamura *et al.*
- 893 Novel models for human scirrhous gastric carcinoma *in vivo* S. Takemura *et al.*

December

- 949 Oncogenic role of *NALP7* in testicular seminomas K. Okada *et al.*
- 955 Diagnostic potential in bladder cancer of a panel of tumor markers (calreticulin, γ -synuclein, and catechol-O-methyltransferase) identified by proteomic analysis H. Iwaki *et al.*

MOLECULAR BIOLOGY AND GENETICS

January

- 40 Promoter methylation status and expression of *TMS1* gene in human epithelial ovarian cancer J. Akahira *et al.*
- 44 Survivin as a predictor of cis-diamminedichloroplatinum sensitivity in gastric cancer patients M. Nakamura *et al.*
- 52 Nemo-like kinase suppresses a wide range of transcription factors, including nuclear factor- κ B J. Yasuda *et al.*
- 58 Frequent hypomethylation in multiple promoter CpG islands is associated with global hypomethylation, but not with frequent promoter hypermethylation A. Kaneda *et al.*

February

- 149 Mutation of the *von Hippel-Lindau* (*VHL*) gene in human colorectal carcinoma: Association with cytoplasmic accumulation of hypoxia-inducible factor (HIF)-1 α T. Kuwai *et al.*

March

- 218 Expression profiling to predict postoperative prognosis for estrogen receptor-negative breast cancers by analysis of 25,344 genes on a cDNA microarray T. Nagahata *et al.*

- 226 Phenotypic differences of proliferating fibroblasts in the stroma of lung adenocarcinoma and normal bronchus tissue N. Nakamura *et al.*

April

- 348 Targeted disruption of one allele of the *Y-box binding protein-1* (*YB-1*) gene in mouse embryonic stem cells and increased sensitivity to cisplatin and mitomycin C K. Shibahara *et al.*
- 354 A novel DNA topoisomerase inhibitor: dehydroeburonic acid, one of the lanostane-type triterpene acids from *Poria cocos* Y. Mizushima, *et al.*

May

- 424 Targeted gene delivery using humanized single-chain antibody with negatively charged oligopeptide tail M. Suzuki *et al.*
- 430 Identification of NOL8, a nucleolar protein containing an RNA recognition motif (RRM), which was overexpressed in diffuse-type gastric cancer N. Jinawath *et al.*
- 436 Genetic link between *p53* and genes required for formation of the zonula adherens junction M. Yamaguchi *et al.*
- 442 Conditional gene silencing utilizing the *lac* repressor reveals a role of SHP-2 in *cagA*-positive *Helicobacter pylori* pathogenicity M. Higuchi *et al.*

June

- 503 Identification of a novel fusion gene in a pre-B acute lymphoblastic leukemia with t(1;19)(q23;p13) Y. Yuki *et al.*

July

- 588 Frequent promoter methylation and gene silencing of *CDH13* in pancreatic cancer M. Sakai *et al.*

September

- 741 Methylation-associated silencing of the Wnt antagonist *SFRP1* gene in human ovarian cancers T. Takada *et al.*

October

- 828 Distinct pattern of gene expression in pyothorax-associated lymphoma (PAL), a lymphoma developing in long-standing inflammation M. Nishiu *et al.*

November

- 901 Non-steroidal anti-inflammatory drugs inhibit cellular proliferation and upregulate cyclooxygenase-2 protein expression in endometrial cancer cells J. Gao *et al.*

December

- 962 Promoter methylation profiling of 30 genes in human malignant melanoma J. Furuta *et al.*
- 969 Skp2 overexpression is a *p27^{Kip1}*-independent predictor of poor prognosis in patients with biliary tract cancers T. Sanada *et al.*

EPIDEMIOLOGY AND PREVENTION

January

- 65 Serum phytoestrogens and prostate cancer risk in a nested case-control study among Japanese men K. Ozasa *et al.*
- 72 Relation of cigarette smoking and alcohol use to colorectal adenomas by subsite: The self-defense forces health study K. Toyomura *et al.*

March

- 233 Influence of hospital procedure volume on ovarian cancer survival in Japan, a country with low incidence of ovarian cancer A. Ioka *et al.*
- 238 A case-control study of diet and prostate cancer in Japan: possible protective effect of traditional Japanese diet T. Sonoda *et al.*
- 243 A prospective study on the possible association between having children and colon cancer risk: Findings from the JACC Study K. Tamakoshi *et al.*

May

- 448 Isoliquiritigenin, a flavonoid from licorice, reduces prostaglandin E_2 and nitric oxide, causes apoptosis, and suppresses aberrant crypt foci development T. Takahashi *et al.*

July

- 592 Hepatitis C virus infection as a likely etiology of intrahepatic cholangiocarcinoma S. Yamamoto *et al.*
- 596 HTLV-1 provirus load in peripheral blood lymphocytes of HTLV-1 carriers is diminished by green tea drinking J. Sonoda *et al.*
- 602 A prospective study of reproductive and menstrual factors and colon cancer risk in Japanese women: Findings from the JACC study K. Tamakoshi *et al.*

August

- 674 Bowel movement frequency, medical history and the risk of gallbladder cancer death: A cohort study in Japan K. Yagyu *et al.*

September

- 745 Effect of hepatitis C virus infection on the risk of non-Hodgkin's lymphoma: A meta-analysis of epidemiological studies K. Matsuo *et al.*

October

- 835 Novel biomarker of HTLV-1-associated disease: Specific appearance of antibody recognizing the receptor-binding site on HTLV-1 envelope protein Y. Sagara *et al.*

November

- 908 *Methylenetetrahydrofolate reductase C677T* and *A1298C* polymorphisms and colorectal cancer: The Fukuoka Colorectal Cancer Study G. Yin *et al.*

December

- 977 *hOGG1 Ser326Cys* polymorphism, interaction with environmental exposures, and gastric cancer risk in Japanese populations H. Tsukino *et al.*

IMMUNOLOGY AND VIROLOGY

January

- 77 Phase I trial of patient-oriented vaccination in HLA-A2-positive patients with metastatic hormone-refractory prostate cancer M. Noguchi *et al.*
- 85 Vaccination with autologous endothelium inhibits angiogenesis and metastasis of colon cancer through autoimmunity Y. Okaji *et al.*

February

- 154 Inhibition of RL male 1 tumor growth in BALB/c mice by introduction of the *RLakt* gene coding for antigen recognized by cytotoxic T-lymphocytes and the *GM-CSF* gene by *in vivo* electroporation M. Tanaka *et al.*

March

- 248 Tumor-derived heat shock protein 70-pulsed dendritic cells elicit tumor-specific cytotoxic T lymphocytes (CTLs) and tumor immunity G. Ueda *et al.*
- 254 Analysis of CD8 T-cell response by IFN γ ELISPOT and H-2L^d/pRL1a tetramer assays in pRL1a multiple antigen peptide-immunized and RL male 1-bearing BALB/c and (BALB/cx57BL/6) F₁ mice I. Takada *et al.*
- 260 Expression of RCA51 in human gastric carcinoma: A potential mechanism of immune escape Y. Nakamura *et al.*

June

- 508 Diagnostic value of serum EBV-DNA quantification and antibody to viral capsid antigen in nasopharyngeal carcinoma patients S. Kondo *et al.*

November

- 914 Immunity against mouse thymus-leukemia antigen (TL) protects against development of lymphomas induced by a chemical carcinogen, *N*-butyl-*N*-nitrosourea K. Tsujimura *et al.*

EXPERIMENTAL THERAPEUTICS AND CLINICAL MEDICINE

January

- 91 Adenovirus-mediated *p53AIP1* gene transfer as a new strategy for treatment of p53-resistant tumors K. Yoshida *et al.*
- 98 Intratumoral injection of IL-2-activated NK cells enhances the antitumor effect of intradermally injected paraformaldehyde-fixed tumor vaccine in a rat intracranial brain tumor model E. Ishikawa *et al.*

February

- 160 Potent antitumor effect elicited by superantigen-linked tumor cells transduced with *heat shock protein 70* gene C. Huang *et al.*
- 168 DE-310, a novel macromolecular carrier system for the camptothecin analog DX-8951f: Potent antitumor activities in various murine tumor models E. Kumazawa *et al.*
- 176 Proteasome inhibitor PS-341 induces growth arrest and apoptosis of non-small cell lung cancer cells via the JNK/c-Jun/AP-1 signaling Y. Yang *et al.*
- 181 Ultrasound-induced killing of monocytic U937 cells enhanced by 2,2'-azobis(2-amidinopropane) dihydrochloride L. B. Feril Jr. *et al.*
- 186 p53-independent anti-tumor effects of the nitrogen-containing bisphosphonate zoledronic acid J. Kuroda *et al.*

March

- 266 Dephosphorylation of Bcl-2 by protein phosphatase 2A results in apoptosis resistance S. Simizu *et al.*
- 271 Proteasome inhibitor PS-341 down-regulates prostate-specific antigen (PSA) and induces growth arrest and apoptosis of androgen-dependent human prostate cancer LNCaP cells T. Ikezoe *et al.*

April

- 361 Caspase-independent necrotic cell death induced by a radiosensitizer, 8-nitrocaffeine M. Naito *et al.*
- 367 Treatment efficiency of a suicide gene therapy using prostate-specific membrane antigen promoter/enhancer in a castrated mouse model of prostate cancer S. Ikegami *et al.*
- 371 Angiogenesis and the efficacy of postoperative administration of UFT in pathologic stage I non-small cell lung cancer F. Tanaka *et al.*

May

- 454 DNA intrastrand cross-link at the 5'-GA-3' sequence formed by busulfan and its role in the cytotoxic effect T. Iwamoto *et al.*
- 459 Late resistance to adenoviral p53-mediated apoptosis caused by decreased expression of CoxSackie-adenovirus receptors in human lung cancer cells Y. Tango *et al.*
- 464 The expressions of p21 and pRB may be good indicators for the sensitivity of esophageal squamous cell cancers to CPT-11: Cell proliferation activity correlates with the effect of CPT-11 Y. Nakajima *et al.*

June

- 514 A novel mouse model of rectal cancer established by orthotopic implantation of colon cancer cells T. Takahashi *et al.*
- 520 Cytochrome P450 gene expression levels in peripheral blood mononuclear cells in comparison with the liver M. Furukawa *et al.*
- 530 Comparative analysis of ATP-binding cassette (ABC) transporter gene expression levels in peripheral blood leukocytes and in liver with hepatocellular carcinoma M. A. Moustafa *et al.*
- 537 *In vitro* conversion of irinotecan to SN-38 in human plasma M. Shingyoji *et al.*
- 541 Dependence of chemotherapy response on p53 mutation status in a panel of human cancer lines maintained in nude mice M. Koike *et al.*
- 547 Kigamicin D, a novel anticancer agent based on a new anti-austerity strategy targeting cancer cells' tolerance to nutrient starvation J. Lu *et al.*

July

- 608 Antitumor effect of MCC-465, pegylated liposomal doxorubicin tagged with newly developed monoclonal antibody GAH, in colorectal cancer xenografts T. Hamaguchi *et al.*
- 614 Direct inhibition of EGF receptor activation in vascular endothelial cells by gefitinib ('Iressa', ZD1839) A. Hirata *et al.*

August

- 679 Docetaxel enhances the cytotoxicity of cisplatin to gastric cancer cells by modification of intracellular platinum metabolism S. Maeda *et al.*
- 685 Antitumor activity of pyriminium pamoate, 6-(dimethylamino)-2-[2-(2,5-dimethyl-1-phenyl-1H-pyrrol-3-yl)ethenyl]-1-methyl-quinolinium pamoate salt, showing preferential cytotoxicity during glucose starvation H. Esumi *et al.*
- 691 Phase I study of cisplatin, vinorelbine, and concurrent thoracic radiotherapy for unresectable stage III non-small cell lung cancer I. Sekine *et al.*

September

- 753 Determinants of sensitivity and resistance to gemcitabine: The roles of human equilibrative nucleoside transporter 1 and deoxycytidine kinase in non-small cell lung cancer H. Achiwa *et al.*
- 758 Isolation of an anti-angiogenic substance from *Agaricus blazei* Murrill: Its antitumor and antimetastatic actions Y. Kimura *et al.*
- 765 Sonodynamic therapy on chemically induced mammary tumor: Pharmacokinetics, tissue distribution and sonodynamically induced antitumor effect of porfimer sodium N. Yumita *et al.*

October

- 840 Sensitization of human glioblastomas to tumor necrosis factor-related apoptosis-inducing ligand (TRAIL) by NF- κ B inhibitors C. Kasuga *et al.*
- 845 Enhanced antitumor activity of ultrasonic irradiation in the presence of new quinolone antibiotics *in vitro* D. Huang *et al.*

December

- 984 Anticancer effects of ZD6474, a VEGF receptor tyrosine kinase inhibitor, in gefitinib ('Iressa')-sensitive and resistant xenograft models F. Taguchi *et al.*
- 990 Herpes simplex virus-induced, death receptor-dependent apoptosis and regression of transplanted human cancers H. Kamiyama *et al.*

MEETING REPORTS

February

- 193 New approaches to identification of biomarkers for early cancer detection: The Thirteenth International Symposium of the Hiroshima Cancer Seminar, October 2003 W. Yasui *et al.*

March

- 276 Ninth Japanese-German Workshop on Molecular and Cellular Aspects of Carcinogenesis, Essen, Germany, 18-20 September, 2003 K. Miyazono *et al.*

* * * * *

- 619 Erratum
